SUPPLEMENTARY INFORMATION:

I. Abstract

The Quarterly Survey of Foreign Airline Operators' Revenues and Expenses in the United States (BE-9) is a survey that collects data from U.S. offices, agents, or other representatives of foreign airline operators that transport freight, express, and passengers to or from the United States and whose total covered revenues or total covered expenses were \$5 million or more in the previous year or are expected to be \$5 million or more during the current year. The covered revenues are freight revenue on merchandise exported from, or imported into, the United States. The covered expenses are expenses incurred in the United States for: 1) fuel and oil; 2) wages and salaries paid to employees in the United States; 3) agents' and brokers' fees and commissions for arrangement of freight and passenger transportation; 4) aircraft handling and terminal services, aircraft (with crew) leasing expenses; and 5) all other expenses incurred in the United States except leasing (without crew) expenses.

Respondents are also asked to report: 1) shipping weights on which freight revenues were earned; 2) the number of passengers transported to/from the United States; and 3) revenues associated with these passengers.

The data collected on the survey are needed to monitor U.S. trade in transport services to analyze the impact of U.S. trade on the U.S. and foreign economies, to compile and improve the U.S. economic accounts, to support U.S. commercial policy on trade in transport services, to conduct trade promotion, and to improve the ability of U.S. businesses to identify and evaluate market opportunities. The data are used in estimating the transport component of the U.S. international transactions accounts (ITAs) and national income and product accounts (NIPAs).

The Bureau of Economic Analysis (BEA) is proposing minor additions and modifications to the current BE-9 survey to minimize respondent burden while considering the needs of data

users. Existing language in the instructions and definitions will be reviewed and adjusted as necessary to clarify survey requirements.

II. Method of Collection

Form BE-9 is a quarterly report that must be completed within 45 days after the end of each calendar quarter. BEA contacts potential respondents by mail the end of each calendar quarter. Entities required to report will be contacted individually by BEA. Entities not contacted by BEA have no reporting responsibilities.

BEA offers electronic filing through its eFile system for use in reporting on the BE-9 quarterly survey form. For information about eFile, go to www.bea.gov/efile. In addition, BEA posts all its survey forms and reporting instructions on its Web site, www.bea.gov/ssb. These may be downloaded, completed, printed, and submitted via fax or mail.
